

# Bulk Material Handling

At Inquip, we offer comprehensive bulk material handling solutions to meet your industrial needs. Our extensive inventory and expertise ensure efficient, reliable, and cost-effective operations for your business.

We stock and supply an extensive range of bulk handling products from market-leading suppliers. Together with our engineered solutions divisions, we can offer our expertise with your design, supply and installation of bulk material transfer systems to convey, transport, load, bag or elevate your bulk materials.

We offer on-site application analysis and design services and stock a full range of bulk handling products ready for delivery, and breakdown situations.

## Loading Bellows

- ▶ Ship & Stockpile Loading Bellows
- ▶ Tanker Loading Bellows
- ▶ Truck Loading Bellows

## Mixers, Blenders & Agglomerators

- ▶ Batch Type Mixers
- ▶ Conical Screw Mixer
- ▶ Continuous Mixers
- ▶ Dust Conditioner
- ▶ Mortar Mixes
- ▶ Ribbon Blender

## Valves

- ▶ Actuators
- ▶ Butterfly Valve
- ▶ Diverter Valve
- ▶ Double Dump Valve
- ▶ Lump Breaking Feeder Valve
- ▶ Pinch Valve
- ▶ Plug Diverter Valve
- ▶ Rotary Valves
- ▶ Slide Gate Valve

## Storage Silos

- ▶ Bin Activator
- ▶ Live Bin Bottoms
- ▶ Lump Breakers
- ▶ Silo Monitoring & Automation System
- ▶ Silo Safety Products
- ▶ Silo Shut-Off Butterfly Valves
- ▶ Silo Venting Filters
- ▶ Storage Silos

### Screw Conveyors

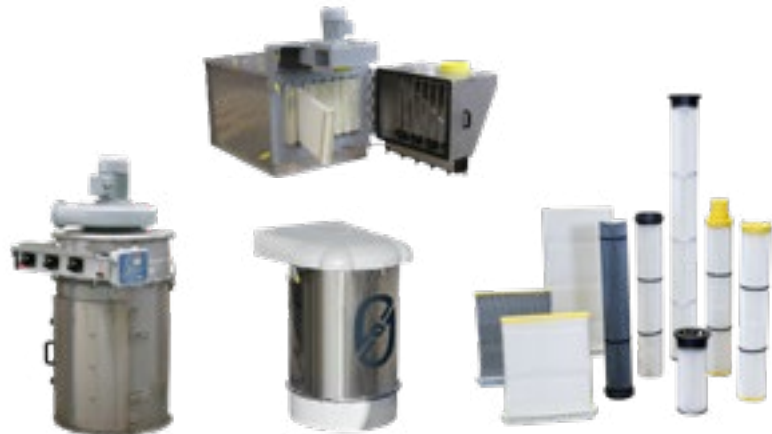

- ▶ Cement Screw Conveyors & Feeders
- ▶ Filler Dust Screw Conveyors & Feeders
- ▶ Flexible Screw Conveyors
- ▶ Heavy-Duty Tubular Screw Feeders
- ▶ Minimum Residue Tubular Screw Feeders
- ▶ Shaftless Screw Conveyor
- ▶ Stainless Steel Tubular Conveyor
- ▶ Trough Screw Conveyor
- ▶ Tubular/ Flexible/ Custom Screw Conveyor
- ▶ Tubular Trough Screw Conveyor
- ▶ Twin Shaft Screw Feeders
- ▶ Stainless Steel Tubular Conveyor
- ▶ Vertical Screw Conveyor

### Weighing, Metering, Feeding & Bagging

- ▶ Automatic Weighing Conveyors
- ▶ Bag Openers
- ▶ Belt Weighing Conveyors
- ▶ Bulk Bag Loading/Unloader
- ▶ FIBC Bagging/Weighing Equipment
- ▶ Filler Dust Screw Feeders & Conveyors
- ▶ Loss-In-Weight (LIW) Feeder
- ▶ Micro-Batch Feeders
- ▶ Waste Bag Compactors
- ▶ Weigh-Belt Feeders

### Dust Collectors

- ▶ ATEX Dust Collectors
- ▶ Dry-Batch Concrete Plant Collectors
- ▶ Flanged Round Dust Collectors
- ▶ Polygonal Dust Collectors
- ▶ Replacement Filters
- ▶ Silo Venting Filters
- ▶ Venting

### Solid & Liquid Separation

- ▶ Concrete Reclaimers
- ▶ Concrete Separator
- ▶ Grit Classifiers
- ▶ Screw Compactor
- ▶ Screw Press Separators
- ▶ Screw Screens
- ▶ Vertical Screw Conveyor for Sludge
- ▶ Waste Water Mini-Treatment Plant

# Vibration, Fluidisation & Flow Control

## Fluidisation

- ▶ Fluidisation Nozzles
- ▶ Fluidisation Pads

## Vibration Motors

- ▶ AC & DC Motors
- ▶ Electric Vibrators
- ▶ Hammer Vibrators
- ▶ MVE Extender Vibrator
- ▶ Pneumatic Vibrators
- ▶ Single Impact Pneumatic Hammer
- ▶ Vibrator Clamps & Cradles

## Flow Control

- ▶ Combined Hammer Blasts
- ▶ Electronic Pressure Meter
- ▶ Rotary Level Indicators
- ▶ Vibrating Bin Aerators
- ▶ Vibro-Aerators

## Concrete Consolidation

- ▶ Continuous Impact Vibrators
- ▶ Electric Concrete Pokers
- ▶ Electric High Frequency Internal Vibrators
- ▶ External Electric Motovibrators
- ▶ Frequency & Voltage Converters
- ▶ High Frequency Vibration
- ▶ Rotary Ball Vibrators

# Conveyors & Anti-wear Materials

## Coneyors

- ▶ Bucket Elevators & Components
- ▶ Modular enclosed food-grade belt conveyors
- ▶ Pneumatic Conveying Systems
- ▶ Screw Conveyors

## Belt Skirting

- ▶ Belt Scrapers
- ▶ Clamping Systems
- ▶ Dust-Free
- ▶ Dust Seal Systems
- ▶ Hardskirt Plates
- ▶ Skirting and Sealing

## Conveyor Tracking & Rollers

- ▶ Auto Conveyor Belt Tracking System
- ▶ Belt Conveyor
- ▶ Conveyor Pulleys
- ▶ Conveyor Rollers
- ▶ Flexible Conveyor Idler
- ▶ Gravity Roller Conveyor
- ▶ Live Roller Conveyor

## Anti-wear Materials

- ▶ Anti-Wear Elbows
- ▶ Anti-Wear Lining
- ▶ Magna-Patch
- ▶ Magna-Plug
- ▶ Magna-Seal
- ▶ Magna-Skin

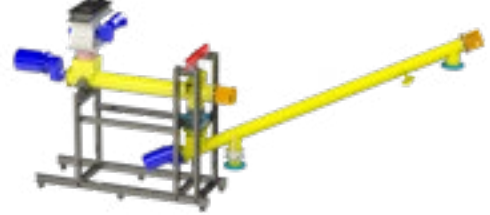

# Engineered Solutions

## Design, Specialised Projects & Custom Builds

Together with our Design/Project Management/Automotive Divisions - Techquip and Automation & Control, we offer the complete package.

Our team are trained in all aspects of bulk materials handling and power transmission products and services can assist with project management including Design, Supply, Installation and Maintenance.

- ▶ Batching Plants
- ▶ Bulk Bagging Systems
- ▶ Dosing Systems
- ▶ Factory Automation
- ▶ Food Grade Equipment

- ▶ Loss-in-Weight Systems
- ▶ Pivoted Weigh Screws
- ▶ Pneumatic Transfer
- ▶ Screw Packages
- ▶ Weighing Conveyors, & more.

## Installation, Maintenance & Servicing

Our servicing and repairs are carried out by our service and maintenance division, Techquip, where we offer on-site quotations and assessments.

- ▶ Full strip and inspection reports, including all analysis, hardness testing, and no load run testing
- ▶ Genuine parts
- ▶ Locally manufactured parts for breakdown situations
- ▶ On-site servicing and repairs for a range of equipment, general fabrication & maintenance
- ▶ Rebuild service for all head drum and idler assemblies
- ▶ Reliable mobile service team
- ▶ Tailored reports providing preventative maintenance and drive installation advice.

**Bag Filling & Discharging**

**Concrete Batching**

**Concrete Consolidation**

**Industrial Flow-Aids**

**Grain, Food & Beverage**

**Mining & Heavy Industries**
